When I became pregnant, I knew I would need someone close to my job to watch our little bundle of joy. I was a bit on the nervous side because she was our first child and I was new to the area. I got a great reference from my boss (Sonia kept her children from when they were born until they went off to Kindergarten).

I met with Sonia at her house and I was very pleased at how clean and just an overall nice lady she is and how great she is with all the children. When I was 8-1/2 months pregnant, my husband and I got some disturbing news, he was being deployed overseas. I was an emotional train wreck.

To make a long story short, our baby girl Brecken, started with Sonia when she was 6 weeks old. I was so nervous but then again, I was ready to get back to work. When I started work, it was a GREAT transition. I did not have to worry about how Brecken was doing because Sonia called and emailed me to keep me informed on how she was doing. And if I ever had any questions or concerns she happily addressed them with me. In my time of needing "Peace of Mind" she delivered. I NEVER once had to worry if my little girl was getting the time and attention she needed. It showed!

I would HIGHLY recommend Sonia to anyone needing childcare.
